## Packing Check List

Not everything listed below will apply to YOUR specific trip.

Pack what is necessary & repeat clothes -- IT"S OK -- no one is going to report you to wardrobe police.

Airlines: Charge for check-in luggage. Check your specific airline policy (which constantly change).

Currently, each piece of check-in luggage cannot weigh more than 50 lbs.

Cruise lines: Allow 200 lbs. - remember you'll have to handle the luggage at times so don't overdo.

If we've missed something that should be included, let us know and we'll gladly update this list.
